Profile

A fast-learning, communicative, meticulous and diligent university graduate who has an upper second classification in the degree of Computer Science with Design in the UK from Lancaster University. I am confident I can make use of the knowledge I gained from my course to create user-friendly application interfaces and implement them into web/app development, and at the same time make use of my communication skills, particularly in English, to present my ideas.

Work Experience

2018-12 to 2019-02   **Part-time Position at Employer Solutions Ltd. (UK)**

- Contributed to website UI development using Wordpress.

2018-07 to 2018-09   **Internship at QBS System Ltd. (Hong Kong)**

- Responsible for front-end and UI/UX design with the use of ReactJS, while collaborating with back-end developers from Taiwan.

2017-07 to 2017-09   **Internship at InstaCode (Hong Kong)**

- Contributed to Web Development and UI/UX Design by building essential web components for the company's IDE in typescript, jQuery and JavaScript. Also assisted with program/IDE debugging as well as writing documentation.

Other Experience and Achievements

2019- 01 to 2019-03   **Mobile App Development for Final Year Project**

- Created a fully functional local mobile app in React Native individually. It has been user-tested, and the project is being worked on for future publication, the app will be acknowledged for providing a practical tool to further a doctoral project in September 2019.

2015   **Public Speaking Contest**

The Hong Kong Federation of Youth Groups, The English Speaking Union of Hong Kong, Standard Chartered

- Rewarded with a certificate of appreciation for a good performance in the Senior Division of the Hong Kong Federation of Youth Groups Standard Chartered Hong Kong English Public Speaking Contest 2015

2015   **English Subject Award**

Po Leung Kuk Laws Foundation College

- 2nd in English in Secondary 6, for all terms and the annual specified academic year

Education
